4. The "General Inquiry" Form (<ContactForm>)

Position: Below the cards. This is for media, press, or non-urgent questions.

H2: GENERAL INQUIRY TRANSMISSION

Field 1: Identification

- Label: Full Name
- Placeholder: John Smith

Field 2: The Routing Protocol (Dropdown)

- Label: Inquiry Category
- *Options:*
 - Media / Press Request
 - Partnership Proposal
 - Careers / Talent
 - General Information

Field 3: The Message

- Label: Your Message
- Placeholder: *Brief us on your requirements...*

[BUTTON: SEND MESSAGE]

5. Local SEO Schema (<JsonLd>)

Crucial for ranking in Ghana. This is a block of invisible code that tells Google *exactly* where you are so you show up on Maps.

Instruction: "Insert a `ServiceArea` JSON-LD script containing:"

- **Name:** ZERA | Digital Growth Systems

- **Telephone:** [+233 XXXXXXXX]
 - **PriceRange:** \$\$\$
-

6. The "Remote" SEO Strategy (Crucial)

WE can still rank on Google Maps without a physical office. This is called a **Service Area Business (SAB)**.

Developer/SEO Instructions:

1. **Google Business Profile:** When setting this up, checking "No" on "Do you have a location customers can visit?"
 2. **Service Areas:** List **Accra, Lagos, London, New York** (etc)
 3. **The Result:** Google will show a "Red Outline" around Accra instead of a specific pin. This protects your privacy while keeping your SEO rank.
-

7. FAQ (The Gatekeeper) (<FAQ>)

- **Q: Do you accept walk-in consultations?**
 - **A:** [PUT AN ANSWER HERE]
 - **Q: What is your response time?**
 - **A:** All general inquiries are processed within **24 hours**. Active Client Support tickets are resolved faster.
-

Developer Instructions

- **Vibe:** Reinforce 'Digital First'. The lack of an office should feel like a feature, not a bug."
- **Form Logic:**
- If user selects 'Support' in the dropdown, auto-show a message saying: '*For fastest service, please email support@zerahq.com directly.*'"
